

Test your company's immunity against **ransomware** attack

Massive ransomware attacks targeting businesses are happening all around the world.

On average, every Czech company faces 640 attacks per week!

Avoid becoming one of the victims and minimize the risks!

Our services include:

- High-level audit of the network architecture, endpoint security, and back-up processes.
- Verification of the true state of your endpoint security as well as the security of the web and e-mail channels by sending ransomware samples.
- Checks using specialized security tools.
- Final report including proposed recommendations

price 1 950 EUR
